Subject: New Individual Hearing Standard Text
Date: Friday, June 15, 2018 3:04:56 PM

Dear IJs, ACIJs and above (⊕)

I know I was certainly glad to hear about HQ's efforts to streamline our decisions. However, when I went to our G: drive there was only one Circuit there. What about when an IJ goes on detail and/or an IJ is doing hearings via VTC into another Circuit? How do we get the approved addendum for other Circuits? Perhaps we should put one set for each and every Circuit in the cloud. I would also suggest we give it its own drive letter, such as the K: drive, so we can have one-stop shopping no matter if we go on detail or VTC into a different circuit. A new drive would also make it easier to find and easier for OIT/JLCs to update when the law changes in any given Circuit. That seems to make way more sense than having a full set of every Circuit on every Court's G: drive.

(b) (5)

Thanks to all the JLCs for their hard work in putting this together and to HQ for taking this first major step towards streamlining our oral decisions.

Hon. Stuart F. Karden
Immigration Judge
Orlando, Florida
